

CONSULT TABLES

McDonald Veterinary Equipment manufacture two types of consult table. A Standard model and a wall mounted fold away model.

Both types are available in a flat pack to reduce shipping costs.

Assembly of the standard table is a very simple process, and can be completed within 10 minutes. The wall mounted fold away table needs some care, and time, and would benefit from the skill of a tradesman. All mounting specifications and measurements are supplied.

Both types are completely manufactured from 304 grade stainless steel, and have recessed tops for fluid retention.

The standard table is supplied with leg adjusters on all four legs.

Optional extras include tie down cleats, and screw to floor leg adjusters.

Dimensions for both types are as follows:-

Top	1200 x 600 mm
Height	900 mm
